Supporting Made in America Renewable and Traditional (SMART) Energy Act

(S.3214)

Section-by-section Summary

Section 1, Short Title:

Supporting Made in America Renewable and Traditional (SMART) Energy Act

Section 2, Oil, Natural Gas, Wind, Solar, and Geothermal Leasing:

Onshore

- Requires the Secretary of the Interior to immediately resume oil and gas lease sales.
- Requires a minimum of four lease sales in the top seven public land producing states: Wyoming, New Mexico, Colorado, Utah, Montana, North Dakota, Oklahoma, Nevada, and all other eligible states.
- Requires a replacement sale if any of the four required sales were paused or canceled.
- Requires the creation of wind, solar, and geothermal energy priority areas on public land.

Offshore

- Requires two region-wide offshore oil and gas lease sales in each of the Central Gulf and Western Gulf of Mexico Planning Areas.
- Requires two region-wide offshore oil and gas lease sales in the Alaska Region.
- Requires the development of an offshore wind leasing program in the Atlantic and Pacific Regions.
- Requires the development and approval of a new oil and gas leasing program before the close of a previous program.

Section 3, Transparency in Leasing Review

• Requires the Secretary to disclose all communications, documents and comments from the public related to the Department's oil and gas leasing review.
